

Lab Flooring In Delhi By Smart Floorings

JUNE 4, 2024 | 0 COMMENTS

Is your current lab flooring putting your research at risk? Are you tired of spills and stains ruining your lab floor? Or, are you worried about chemical resistance and safety in your lab? If yes, then it is high time to change your laboratory flooring. In a metropolis like Delhi, labs are common with marble or epoxy floors. These marble and epoxy floors might be a good option for you but the advancements in the flooring industry are at their pace. That's why you need to upgrade your lab flooring in Delhi.

Smart Floorings is introducing you to Ecotile, the very first smart and eco-friendly tile for Indian floors. Ecotile is the very first all-in-one flooring tile option for every space. This is an easy-to-maintain, easy-to-clean, easy-to-install, and even it is easy on the pocket lab flooring. No harm to Mother Nature is guaranteed as it is made of recycled materials. This will highlight that your lab is environmentally conscious.

Why Smart Flooring's Ecotile Is A Better Option For Your Lab Flooring?

Smart Floorings is a leading company in India offering flooring solutions for all spaces, whether it is industrial, commercial, or residential. Our Ecotile is one of the best **lab flooring** options with its interlocking edges and chemical-resistant properties. It is easy to install; you won't need any adhesive or chemicals to install the floor. No professional assistance is required when you buy Ecotile from Smart Floorings for your lab.

Offers You Noise Proof Environment

We all know that labs are pretty quiet spaces because of the crucial research that is going on there. That's why your laboratory flooring must support the anti-noise or at the very least it should suppress the noise if there is any. Ecotile here is the best flooring solution because it reduces the noise. Unlike old-age lab flooring options it is not hard-

surfaced tile so it doesn't produce any sharp sound and supports the environment of your laboratory.

Customize Your Tiles

Signs and symbols are needed at labs but customizing other floorings according to your lab is one of the difficult tasks. So, considering the customization needs of the laboratories, Smart Floorings came up with DIY lab flooring options. Along with several pre-built variations, you can also customize your Ecotile as per your lab's theme or colour palette.

No More Colour Fading

Chemical spills lead to the faded colour of any flooring option, especially in the case of epoxy flooring. And as already mentioned, Ecotile is spill and chemical-proof, so you don't have to worry about that. Your lab flooring will always look great in any weather condition.

Cleaning And Maintenance Is Easy For Our Lab Flooring Tiles

Say in any case or chemical got spilled somehow. Now it is done and can't be reversed. But one thing you can do is to clean it. And cleaning our laboratory flooring tiles is super easy. You just need water or maybe sometimes a little bit of phenyl; that's all you need to remove stains and smell from the floor. It will start shining like a new floor once again.

Our state-of-the-art lab flooring in Delhi is moisture-resistant, preventing the growth of mould and mildew. Ecotile is very easy to clean and reduces the risk of falls and slips. Our tiles are easy to keep and clean, so stains from oil and other materials may be easily removed.

Guarantee Of More Than 10 Years

Although our laboratory flooring may initially cost more, its enhanced attractiveness, longer longevity, and fewer care requirements make it an excellent investment over time. Regarding durability, we provide a warranty extending beyond ten years.

That's all there was to it with our Ecotile. Your lab flooring must be sturdy, distinctive, easy to handle, and clean, among other things. That's why Ecotile provides a comprehensive solution for all of your lab flooring needs in Delhi, it becomes imperative to choose Ecotile.
