

Fresh Mark Achieves More

with
Dynamics 365

**Fresh
Mark**

Benefits

Streamlined IT infrastructure

20% reduction in IT spending

Customizable, efficient systems

Seamless data integration

Improved reporting and insights
with Power BI

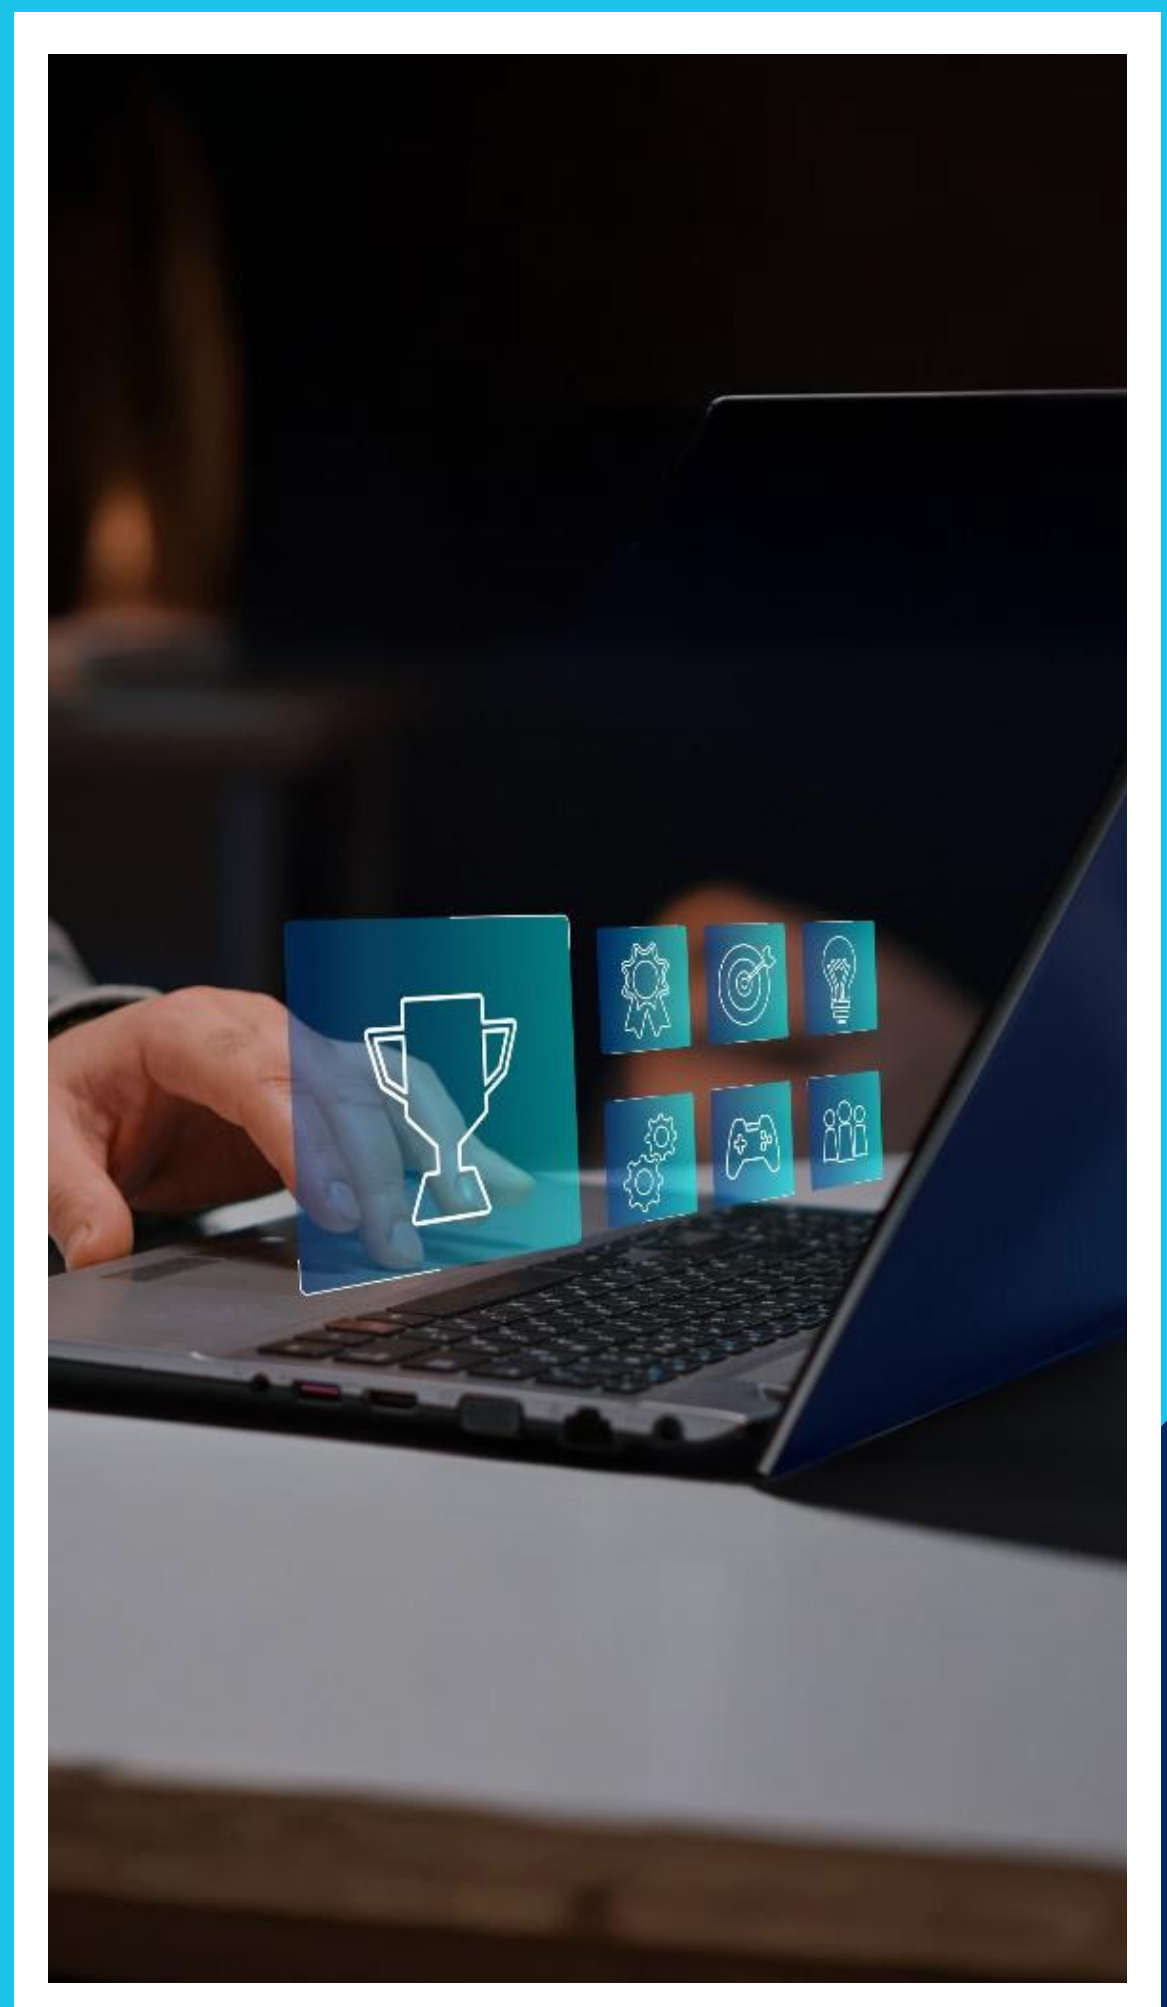

Overcoming Legacy Systems and Maximizing Efficiency

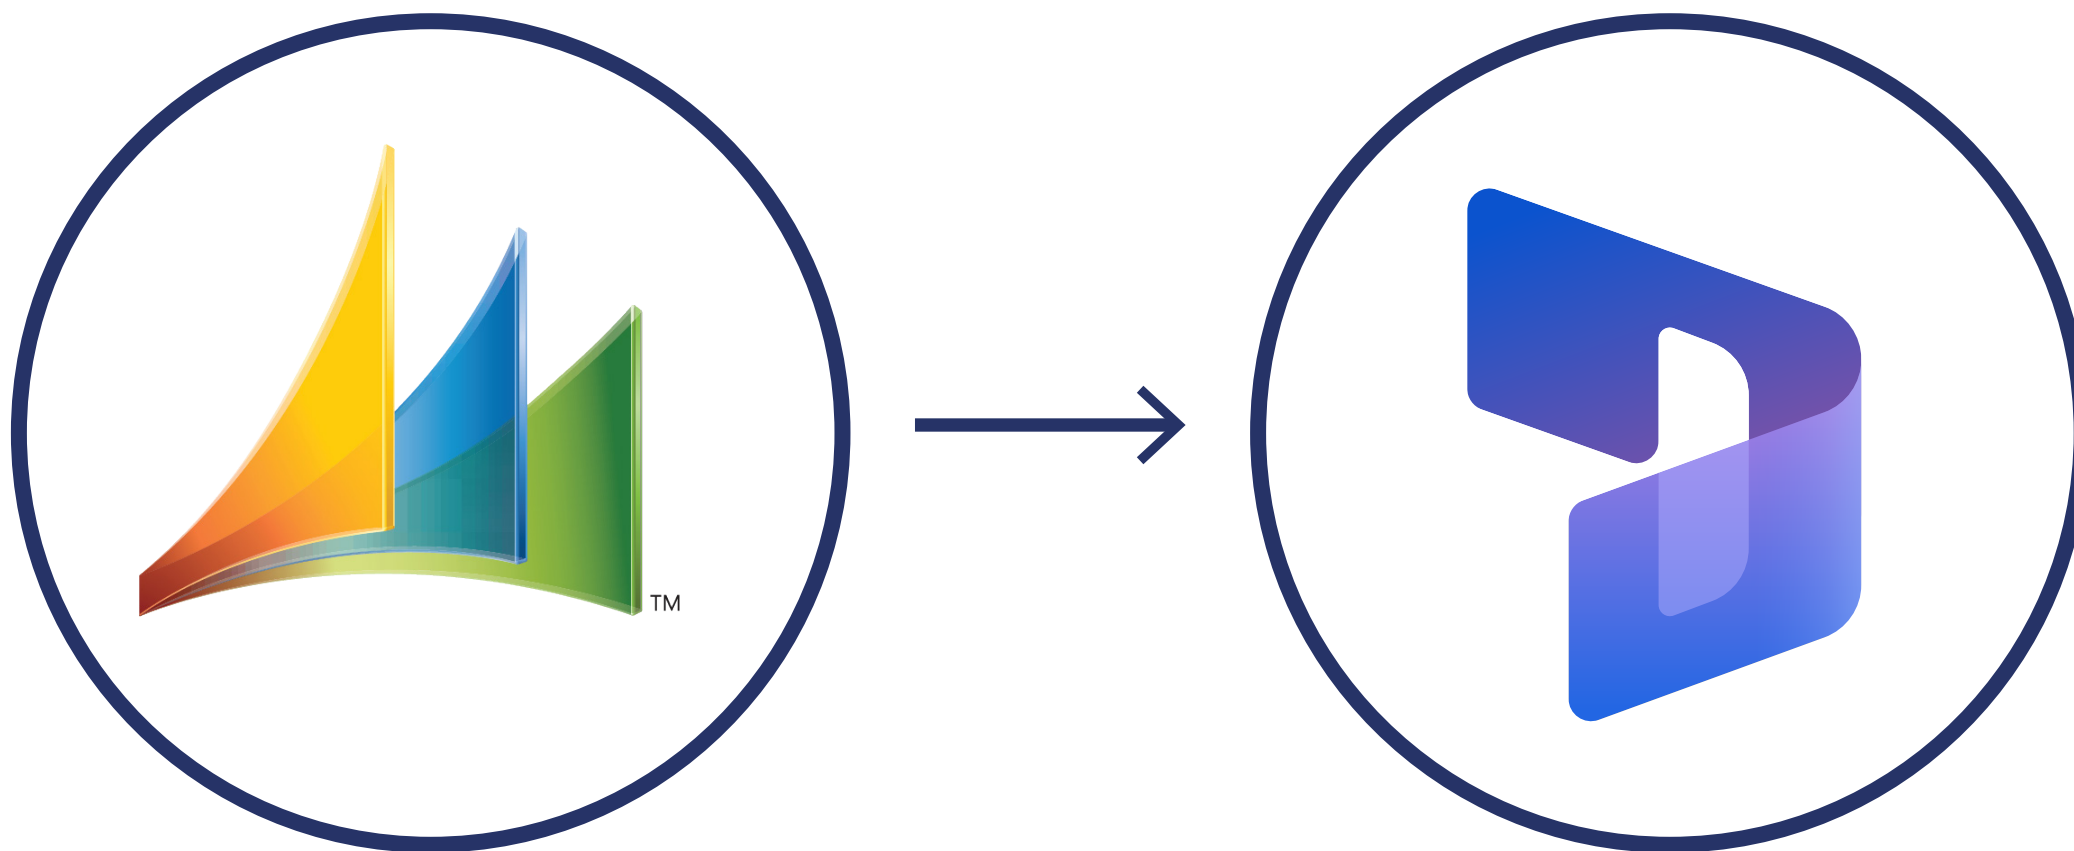

Challenges Faced

- Legacy systems with outdated support
- Manual processes for financial and manufacturing reports
- Risk of system disruptions during 24/7 production
- High maintenance requirements for on-premises servers

Key Achievements

- 1 20% reduction in IT spending**
Achieved by consolidating systems and migrating to the cloud.
- 2 Reduced downtime for updates**
Updates now take only 30-60 minutes with zero system downtime.
- 3 Faster report generation**
With **Power BI** integration, reports are generated in a fraction of the time.
- 4 Improved efficiency**
Automation of key processes has streamlined operations, improving overall capacity.
- 5 Enhanced agility**
A modernized platform with flexible architecture enables easy customization.
