Payment Gateway
Connector

Managing payments within Dynamics 365 can be a complex and time-consuming task. Manual data entry, reconciliation errors, and suboptimal customer experiences are common challenges. Our Payment Gateway Connector helps you to:

Simplify Payment Management

Enhance Operational Efficiency

Improve Accuracy and Financial Reporting

Features

- **Integrated Payment Processing:** Seamlessly incorporate credit card, debit card, and eCheck payments into Microsoft Dynamics 365.

- **Advanced Payment Security:** Ensure payment data protection with robust encryption and industry-standard compliance.

- **Real-Time Payment Analytics:** Fabric enables real-time data streaming and analytics capabilities, allowing users to access and analyze payment transactions instantly within Dynamics 365.

- **Automated Financial Reconciliation:** Accelerate financial reporting and reduce errors with automated payment matching.

- **Multi-Currency Support:** Facilitate international transactions with support for multiple currencies.

- **API Connectivity:** Integrate with third-party applications via APIs to enhance automation and functionality.

- **Regulatory Compliance:** Adhere to payment processing standards and legal requirements with compliance to PCI DSS.
