

Manufacturing Accelerator

Manual reservation processes are time-consuming, error-prone, and heavily reliant on individual expertise. This often leads to inefficiencies, delays, and customer dissatisfaction. DynaTech Systems' **Manufacturing Accelerator** automates this complex process to achieve:

Accurate Shipment & Prompt Delivery

Optimized Inventory Utilization

Faster Order Fulfillment

✔ Customer and Order Priority

Prioritize high-priority customers and shipments when inventory is limited.

✔ Customer-Specific Rules

Customize rules for individual customers, including partial deliveries and batch acceptance.

✔ Inventory Rules

Set criteria for inventory reservations based on quality standards, expiration dates, and FIFO/FEFO principles.

✔ Automatic Batch Jobs

Automate reservation processes with scheduled batch jobs in Dynamics 365.

✔ Reservation Logs

Review detailed logs to track order reservations, successful picks, and identify unreserved orders.
